A NOTE FROM DEAN AND LEANNE

Hello Valued Students & Families!

We hope you are enjoying the beautiful weather. It is so exciting to see the sun shining and the weather improving every day! We know that this means you probably want to be OUTSIDE enjoying the weather as much as possible. We definitely get that! So on that "note", Spring time can be a wonderful time to explore music composition... there are so many inspiring things to write about at this time of year! It is also a time when we probably need specific and detailed goals in place along with a clear strategy regarding when we will practice between all the other activities that come with spring. So parents, we encourage you to sit down with your child and write out a plan for each week that can include music practice at least every second day. This is so we don't lose the momentum we have built over the past number of months! We encourage you to share a draft with your teacher and ask for input.

As well, it is also time to start planning for Summer. Continuity is so important in the music learning journey of all students... young or old! Creating consistency from week to week - including the summer months - is of the utmost importance. This is why we, at Crescendo Music Studios, believe so much in the value of summer lessons. Even if we can see you a few times through the summer, this will help to create consistency in learning.

If you are interested in learning more, click the button below to read an article we wrote on the importance of continuity.

Please enjoy the beautiful weather...but also remember, "Practice Makes Permanent!"

Warm Regards,

Dean & Leanne Cummings

TIPS AND INSIGHTS FOR OUR STUDENTS

Top 5 Challenges for Adult Students

“There is no end to education. It is not that you read a book, pass an examination, and finish with education. The whole of life, from the moment you are born to the moment you die, is a process of learning.”
— Jiddu Krishnamurti

Starting to learn an instrument as an adult can be daunting. Children tend to have no fear of the unknown, and no recognition of their limits; whereas adults...
